

Subject of the formula

Make the indicated letters the subject of the formula in the following questions:

1) $A = 5ab$; make b the subject of the formula.

2) $5x = 3y - z$; make y the subject of the formula.

3) $2p - a = 3p + b$; make p the subject of the formula.

4) $P = (m + M)f$; make M the subject of the formula.

5) $2s = (u + v)t$; make t subject of the formula.

6) $2s = (a + b)y$; make y subject of the formula.
